

SCIENCE SPAZA

Knowledge is Ncah!

Internship Opportunity

Science Spaza (www.sciencespaza.org) brings exciting, interactive and fun curriculum-linked learning opportunities to a growing network of science clubs across South Africa. It aims to improve science literacy and reveal to young people the power of science and technology in transforming their world. Science Spaza addresses the lack of resources and activity-based learning opportunities which have resulted in poor understanding of key science and math concepts. In the past year Science Spaza has partnered with over 150 science clubs nationally. Science Spaza is an initiative of Jive Media Africa, a leading science communication agency, working with national and international clients to translate science and research for a wide range of public audiences.

We are looking to fill an available **internship position** for a **science graduate** at the **Honours or Masters level**. The intern will be directly involved in implementing the Science Spaza programme nationally.

Requirements:

- Honours or Masters degree in Science, Technology, Engineering and Mathematics (STEM) field
- Passion for science outreach and inspiring a new generation of STEM professionals
- Understanding of the South African Education Sector, especially in low resource contexts
- Strong communication skills are essential
- A valid SA driver's license
- Willingness to travel to sites ~~and~~ locally and within South Africa
- Strong organisational skills
- Project management skills
- Experience with Microsoft Office
- Experience with managing social media is an added advantage

Location: Pietermaritzburg, KwaZulu-Natal

Interns will be paid a monthly stipend to cover expenses.

Please submit a comprehensive Curriculum Vitae and a one page covering letter to admin@jivemedia.co.za

Closing date for applications: **Friday 20th October 2017**
